Digital & Analog combo TV Tuner card

With this TV PCI card you can watch (and record) digital (DVB-T Free to air) and analog TV channels at the same time (simultaneously). Also you can listen to FM radio. The card can be used with an external antenna or in combination with a cable TV antenna. The bundled software supports video and channel functions.

Highlights

- Supports EPG, Teletext and timeshifting
- Including software & remote control
- Real-time video recording in MPEG-4/2/1 format
